June 13, 2025

As we enjoy the summer weather, I feel that we are still making great strides in our recovery. I realize it may seem odd to continue to bring up the word recovery, but every day is filled with items that continue to relate to the storm. We are moving along with the ditch cleanouts on roadsides and have completed all but two roads on the Grouse Moor Drive side of the mountain. We lack the Mossy Creek and Briarcliff areas and will be finished with this project. Roadside mowing has also begun, please be aware that the mower will be on the streets daily in different areas. Most of the road striping has been finished, with white lines remaining to be painted on Grouse Moor. Many of these projects could be completed faster, but we simply do not have the staff to adequately accomplish these tasks any quicker. We only ask for patience in this matter, our men are doing the best that they can.

Work continues on the golf course renovation, albeit slowly. The crew working on the bunker project is about 40 % finished with the initial phase. I am hoping that this part will be concluded by the end of the month. It appears that most of our summer pass holders and regulars have returned and I am receiving nothing but compliments from them on the appearance of the course and on the amount of work that has been done. I am truly thankful for all of their kind words. If anyone has any questions or comments, please do not hesitate to contact me.

Respectfully submitted,

Bill Daniels,

Village Maintenance Director
