THE VILLAGE OF SUGAR MOUNTAIN
251 Dick Trundy Lane
Sugar Mountain, NC 28604

October 17, 2025

We have been very busy with this stretch of pleasant weather. The crew has finished up the seasonal mowing schedule and shouldn't have to make another cut this fall. Time has turned to the task of keeping the leaves out of the culverts and ditches. Please be aware of this equipment that is on the town streets on a daily basis. We have completed installation of several additional streetlights and made repairs to some wiring issues that were affecting other lights. Mountain Electric is in the process of replacing the old mainline wire on Crestview Lane and will be working toward the intersection of Elk Horn and Sugar Mountain Drive. For the most part, the work is being conducted in the ditch, and the asphalt is only being disturbed on crossings where necessary. I sincerely hope that our paving crew will be here next week to begin patching and storm repair. The process of repairing Timber Ridge Road and Mossy Creek Lane is still in the engineering – design phase and we hope to get this project underway very soon.

The closing of the golf course is going to be upon us next Sunday, the 26th of October. It is a bittersweet moment, as we are very near the point of being able to open the 16th hole for play. Dail Golf on Thursday completed the re-sodding of the 16th in the fairway and rough. It is my intention to open this hole for play on our last day to be able to say that Helene didn't defeat us, it only set us back for a brief time. I would like to thank my crew for the continued dedication to getting this golf course put back together this season in addition to all the daily maintenance that is required. If anyone ever has any questions or comments, please do not hesitate to contact me.

Respectfully submitted,

Bill Daniels,

Village Maintenance Director
