THE VILLAGE OF SUGAR MOUNTAIN
251 Dick Trundy Lane
Sugar Mountain, NC 28604

January 16, 2026

We have been very busy keeping up with the weather this week, and it appears will continue doing so for the week to come. With the brief warmup last week, the paving crew was able to return and get storm repair completed on Mossy Creek Lane, Slope View Road, Fox Run and the stretch of road between the Town Hall and the Avery County Convenience center. If any other warmer than usual weather returns, they will be here patching road cuts on Crestview Lane, Sugar Tree Lane, Forest Run and Dell Road. These road cuts are due to new power line installation by Mountain Electric. We generally have our paving companies do the work and send a bill to Mountain Electric. It gets the work completed in a more timely manner and finished to our specifications. All of our snow removal equipment is still in great working order and we have managed to get through the winter events without any breakdowns so far. Our stockpile of material remains in good condition and will have enough to safely navigate through the remainder of the winter season.

I look forward to the construction beginning on Timber Ridge Road in the next few weeks and getting that street back online for use. Tri County Paving is a contractor that I have a wonderful working relationship with and I have no reservations about them obtaining the bid to do the work. Hopefully by the next meeting, we will have the bids to review for the stream restoration on the golf course. While a long and drawn out process, I am confident that this will be presented to us in a manner that will allow us to receive complete reimbursement of the funds spent on the golf course creeks and streams. I am excited about the upcoming golf season and having all holes in play for our guests. As always, if anyone has any questions or concerns do not hesitate to contact me.

Respectfully submitted,

Bill Daniels,

Village Maintenance Director
