THE VILLAGE OF SUGAR MOUNTAIN
251 Dick Trundy Lane
Sugar Mountain, NC 28604

June 19, 2026

As I am sure you have noticed, the paint striping has been completed with the exception of the Mossy Creek area. We are still awaiting additional paint to arrive to complete this project. I appreciate the initial approval from the Council of the purchase of a new roadside mower. The current one as of this writing is functional, however we have already had 2 breakdowns of the machine this spring. The cost to keep it operational is rapidly becoming a burden and we look forward to having a new, more efficient machine to operate for many more years to come. I feel that our operator is doing a fantastic job of keeping our roads mowed. Our crew is also in the process of repairing the walking path along and adjacent to Sugar Mountain Drive. Currently they are repairing the worst washout that is next to the 15th green on the golf course. Hopefully we will have the entire path passable from the front entrance by the end of the summer. Following this, we will begin the tree removal from the paths on the Williams Park trails.

The golf course continues to have a great start to the season. We have many of our regulars back and lots of first-time customers every day. I sincerely appreciate the numerous comments we get on the conditioning of the course. The annual Pittman Gap church golf tournament had a full field of teams last weekend bringing 84 players out for their 28th edition of the church's largest fundraiser. In July we will be hosting 2 events from different departments within Appalachian State University. I feel it is important for us to host these events, as it brings us back many repeat customers throughout the year.

Respectfully submitted,
Bill Daniels,
Village Maintenance Director
